

2021/22 Fee Levels†

† New entrants to programmes in 2021/22 or subsequent years will be eligible for either "Home" or "Overseas" fee status. EU students who are new entrants to LSE programmes in 2021/22 onwards will be classified as having "Overseas" fee status unless they fulfil UK immigration criteria.

For further information on these criteria please see these websites:

[UK Government "Studying in the UK: Guidance for International Students"](#)

[UK Council for International Student Affairs "Home or Overseas fee: the basics"](#)

<https://www.lse.ac.uk/study-at-lse/international-students/fee-status-classification>

The fees quoted are for the 2021/22 session at LSE (for one year of study in 2021 only), unless stated otherwise. If the duration of your programme is more than one year you must check subsequent sources, e.g. the 2022/23 Table of Fees, for information on the fees payable in that academic year.

Please note that fees are paid in each academic year for which you are registered and normally rise each year. They will not stay the same as the year in which you started, unless otherwise indicated in the tables below. LSE reserves the right to alter the fee level. Some fees may be provisional, and this will be indicated.

Further information about the fee structures in operation for research programmes can be found at the end of this document and should be read alongside the fee levels listed below.

If your programme includes a period of study at another institution, e.g. MSc Global Media and Communications, the fees for that period will be set by the institution in question and payable there. Likewise, if your programme covers more than one year at LSE, the new fee levels for your second and succeeding years will be payable in due course.

[Further information relating to fee levels can be found in the School's Tuition Fees Policy.](#)

11. The School chooses to set its Home research student fee in line with the level set by the UK Research Councils. The amount of £4,500 shown here was confirmed in January 2021.

12. **For EU students:** from 2021/22 the Home fee status only includes EU students where they started their programme in a previous year. New EU entrants to postgraduate programmes in 2021/22 or subsequent years will only be eligible for Home fee status if they fulfil UK immigration criteria, otherwise they will be classed as the Overseas fee category.

MPHIL/PHD FULL-TIME FEE STRUCTURE

The tuition fee structure for full-time MPhil/PhD programmes can be found in **Table 1**. The tuition fee for the first three years of study will be subject to inflationary increases in each year. In the fourth year, no fee will be charged. If the School grants an extension to the registration period beyond the fourth year of study then the full research fee will be charged for that year and any subsequent years, i.e. from the fifth year onwards students will recommence paying fees.

Table 1 – MPhil/PhD fee structure

	Home/EU	Overseas
MPhil/PhD – Year 1	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 2	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 3	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 4	£0 fee	£0 fee
Registration beyond Year 4	£ Full research fee payable	£ Full research fee payable

Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g. for a student starting in 2021/22 the 2021/22 Table of Fees should be checked for fees payable in year 1, the 2022/23 Table of Fees should be checked for fees payable in year 2, and so on. The exact fees charged to each research student will take into account any periods of interruption, changes in mode and other relevant factors. For example, a proportion of the fee will be charged where special arrangements have been agreed for part-time study.

The maximum length of registration is four years for full-time research students. Exceptionally, the Research Degrees Subcommittee Chair may permit a student to continue to register beyond the maximum length of their programme. Students permitted to enter year 5 will be liable to pay the full fee amount for each further year of study plus any inflationary increase. The only exceptions are:

- Students who have submitted their thesis, and have been examined, but have a significant period of revisions to make, i.e. 12 months, may be allowed to re-register with a zero fee while making the revisions.
- Students with disabilities may be allowed to register beyond the maximum period of study at a zero fee if this has been recommended by the Disability and Wellbeing Service at the School as being a reasonable adjustment and recorded in an Inclusion Plan. Cases will be considered on an individual basis by the Research Degrees Subcommittee Chair in consultation with the Disability and Wellbeing Service.

MRES/PHD FEE STRUCTURES

The structure of MRes/PhD programmes at the School differs from the standard MPhil/PhD structure both in terms of programme length and the fees charged.

There are three different MRes/PhD structures operating at the School:

MRES/PHD 1 + 4 PROGRAMME

An initial MRes year followed by a four-year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

MRes/PhD Anthropology
MRes/PhD International Development
MRes/PhD Political Science
MRes/PhD Quantitative Economic History

The tuition fee structure for MPhil/PhD programmes can be found in **Table 1**. Students entering on to these programmes will be charged a full research fee for the MRes year, a full research fee for the first three years of their PhD and a zero fee for the remaining PhD year. If the School grants an extension to the registration period beyond the fourth year of PhD study then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g. for a student starting in 2021/22 the 2021/22 Table of Fees should be checked for fees payable in year 1, the 2022/23 Table of Fees should be checked for fees payable in year 2, and so on. Exceptions may apply relating to thesis revisions and disability as detailed in the MPhil/PhD section.

MRES/PHD 2 + 3 PROGRAMME (FOR STUDENTS STARTING FROM 2020/21 ONWARDS)

A two year MRes programme followed by a three year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

MRes/PhD Management – Employment Relations and Human Resources
MRes/PhD Management - Organisational Behaviour
MRes/PhD Management - Marketing

The tuition fee structure for MPhil/PhD programmes can be found in **Table 1**. Students entering on to these programmes will be charged a full research fee for both years of the MRes, the full research fee for the first three years of their PhD and a zero fee for the remaining PhD year. If the School grants an extension to the registration period beyond the fourth year of PhD study then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g. for a student starting in 2021/22 the 2021/22 Table of Fees should be checked for fees payable in year 1, the 2022/23 Table of Fees should be checked for fees payable in year 2, and so on. MRES/PHD 2 + 4 PROGRAMME

Two MRes years and then four years of PhD study. This structure applies to students who typically enter with a taught postgraduate qualification on to the following programmes:

MRes/PhD Accounting
MRes Finance
MRes Economics

Students will be charged the full research fee for the two MRes years, the full research fee for the first three years of the PhD and a zero fee for the remaining year of the PhD. If the School grants an extension to the registration period beyond the fourth year of PhD study then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g. for a student starting in 2021/22 the 2021/22 Table of Fees should be checked for fees payable in year 1, the 2022/23 Table of Fees should be checked for fees payable in year 2, and so on.
